

RIVAL SUFFRAGE BODIES PLAN TWO MOVES ON G. O. P.

Congressional Union Demands Approval of Susan B. Anthony Amendment.

NATIONAL SOCIETY ASKS MILDRED PLANK

Twenty Thousand Women Are Expected to March in Chicago Parade To-day.

Chicago, June 6.—Rival national suffrage organizations, meeting in Chicago to-day to perfect plans for an assault upon the resolutions committee of the Republican National Convention tomorrow night, cheered the early and festive returns from the Iowa election, heard reports of progress from many states, contemplated gloomily the prospect of rain for the suffrage parade to-morrow, and adopted opposite courses to be pursued in campaigns for votes.

The Congressional Union for Women Suffrage, meeting at the Blackstone Theatre, completed the organization of the women's party with the adoption of the Susan B. Anthony amendment as the only plank in its platform, and appointed a committee to demand that it be incorporated into the Republican platform. In speeches and resolutions it presented this amendment as the best means of securing the enfranchisement of women and called upon President Wilson to use his influence to secure its adoption.

In the Princess Theatre an assembly called by the National American Woman Suffrage Association went on record as opposed to a campaign for an amendment to the Federal Constitution providing for woman suffrage and cheered a statement by Mrs. Carrie Chapman Catt, who resided, that suffrage should be sought by women excepting an "open door could be found."

Expect to Win in Two Years.

Mrs. Catt said: "The surrender to suffrage if I am a prophet, will come within the next two years. I prophesy that the vote will come to us, as it did to the men in this country, like the sudden result of a battle."

"Common sense and diplomacy direct us to adopt a plank on which we can all agree, to an endorsement of the cause of which we are all at work. They who are asking for a Federal amendment are asking for the whole loaf. We are asking for the whole loaf."

Opposition to the Susan B. Anthony amendment was expressed by Dr. Anna Howard Shaw and others, and early in the session a resolution was adopted by the National American Woman Suffrage Association, which expressed the intention of the woman's party to hold responsible "any party which refuses to do justice to women by placing them on a plane of equality with men in the Constitution of the United States."

The organization of the woman's party was completed by the election of the following officers of a campaign committee: Chairman, Miss Anne Martin, Nevada; first vice-chairman, Mrs. Horace Hearst, California; second vice-chairman, Miss Mary Bartelme, Chicago; secretary, Miss Mabel Vernon, Nevada; alternate, Miss Lina Brown, Colorado.

The platform adopted provides for the main object of securing the passage of the suffrage amendment, the organization of state branches of the party and the election of national officers, an executive committee and advisory council.

Although the parade to be held to-morrow afternoon is in charge of the National Woman Suffrage Association, members of both camps will participate in it. Arrangements for the demonstration, which is to terminate at the Coliseum, were made to-night. A steady downpour of rain to-night prompted the announcement that the parade would be held regardless of the weather. Twenty thousand women are expected to be in the line of march.

POLICE HONOR LEGION GETS WOMAN MEMBER

Star and Badge Conferred on Matron for Excellent Work.

For the first time in the history of the honor legion of the Police Department, the star and badge were conferred on a woman at the reception and installation of officers in Terrace Garden, Fifty-eighth Street and Third Avenue, last night.

In the thirty-two new members was Margaret Whithurst, a matron attached to Special Squad No. 1, who has received several commendations from Commissioner Woods for good work in riding Brooklyn of the "white slave" menace.

John W. Frazer, founder of the honor legion, retiring president, presided at the exercises. John H. Ayres, the new president, spoke on the police as everyday heroes preserving order and protecting life and property.

A. J. Knutson, sergeant at the Fifth Street station, who gave his blood for a little transfusion operation on a woman Schwartz last week, was included as chaplain and guide.

7 DOMINICANS KILLED IN ATTACK ON MARINES

No Americans Hurt—Revolutionary Chiefs Slain.

Washington, June 6.—Rear Admiral Caperton, commanding American forces in San Domingo, advised the Navy Department to-day that two hundred rebels attacked the marine camp at Monte Christi yesterday. They were driven off, leaving seven killed. No Americans were hurt.

American marines and Haytian gendarmes killed the revolutionary chiefs, Melille and Codio and nine of their men near Fonds Verrettes on Sunday. No American casualties are mentioned in the dispatch to-day reporting the incident, which adds that remnants of the band are being pursued.

3 HURT BY BLAST IN EDISON PLANT

Building Wrecked—Houses Are Shaken at Silver Lake.

Belleville, N. J., June 7.—Three men were injured early this morning in an explosion in one of the buildings of the Edison plant in the Silver Lake section of this place. They were taken to a hospital.

The explosion occurred in a building known as No. 2, and is used for the manufacture of iodine. It was unroofed.

All the houses in the vicinity were shaken by the blast.

ANTI-GARBAGE MINUTE MEN TO RESIST CITY

Organize to Repel Richmond Invasion for Plant.

The anti-garbage army of Staten Island took definite organization last night when the vigilance committee of one hundred, flanked by 175 other Richmond citizens, formed the anti-garbage minute men. All pledged themselves to resist the invasion of any site on Staten Island upon which the city might try to erect a garbage disposal plant.

Roger Doyle, who asserts ownership of Prall's Island, Arthur Kill, one of the proposed sites, asked yesterday for the arrest of the thirty men, who, on Monday night, deposed the three watchmen he had stationed on the site. With Assistant District Attorney Ingham, he held two secret conferences with Magistrate Handy.

The fight against the proposed garbage plant had another phase in the Supreme Court, Brooklyn, yesterday. Mrs. Janet P. Doyle, wife of Edward P. Doyle and mother of Roger Doyle, appeared before Justice Crosey to ask that an injunction be granted restraining Mayor Mitchell and Commissioner Woods from keeping seventy-five policemen on Lake's Island, an alternative site of the garbage plant, which the Doylees also say they own. Justice Crosey reserved decision.

Barber's Lies Cost 'MET' \$2,741

Porchio Admits He Gave False Testimony in Oppenheim Suit.

Joseph Porchio, a barber, who left his occupation for the lucrative work of acting as a witness and supplying witnesses, admitted yesterday that he had given false testimony. This, he said, was against Benjamin Oppenheim, who is suing the men who were directors of the Metropolitan Street Railway Company, when he was disbarred and others who, he alleges, conspired to dishonor him.

Porchio said he was paid for his services by L. P. Julian, who was head investigator for the company, and George Bagge, on the approval of Henry A. Robinson, chief counsel for the railway company, of the same who has been disbarred. Robinson is also one of the defendants in the Oppenheim suit, the others being Thomas Fortune Ryan, H. H. Vreeland, Harry Payne Whitney and Oren Root, Jr.

Porchio said Julian had sent him to testify before Hamilton Odell, referee in the Oppenheim disbarment proceedings, telling him to give testimony as strong as that which he had already given against Oppenheim.

Asked whether he told the truth before the referee, the barber replied that he had lied when he declared that Oppenheim had suggested what witnesses in an accident case against the railway company were to say in court. Vouchers were produced yesterday showing that altogether Porchio had received \$2,741 from the company.

Part of his work in the Nugent case, which brought about the charges against Oppenheim, was to take a girl witness out of the city.

Speaking of this case, Porchio quoted Julian as saying: "If you are a witness for us we have lots of money." "I did him," he continued, "that I saw the accident and could tell only the truth. 'No,' he said; 'we want to get Oppenheim. Those two Jews have a lot of cases against us. He gave me \$50 when I left the room.'"

BILTMORE HEAD RENTS HOTEL MANHATTAN

Bowman May Alter Property to Provide Stores.

The Hotel Manhattan, recently purchased by August Heckescher for a price reported to be \$4,500,000, was leased yesterday through the real estate firm of Heckescher & De Saules to John McE. Bowman, president of the Biltmore Hotel Company. The lease is to run for ten years at a rental not made public. John L. De Saules represented Mr. Heckescher in the negotiations and Pense & Elliman represented the new lessee.

The hotel, in Madison Avenue, from Forty-second to Forty-third street, is forty stories high and occupies a frontage of 200 feet on the avenue. It has been occupied twenty-one years by the present tenant, Mr. Heckescher, bought it from the James J. Belden estate, of Syracuse. It was built in 1895, and for many years was the only conspicuously tall building in the terminal neighborhood on Forty-second Street.

Though Mr. Bowman has not made known his plans, it is probable that he will alter the lower floors of the hotel to provide store space to meet the demands of merchants who have joined the trend eastward from Fifth Avenue. This would provide for property, real estate men say, with an income commensurate with its present high value.

U. S. BUYS JERSEY BUILT AEROPLANES

Contracts for Entire Output for Army in Mexico.

[By Telegraph to The Tribune.] Plainfield, N. J., June 6.—Beginning June 21, the Standard Aeroplane Company, of this city, will deliver a military tractor each week to General Funston's army on the Mexican border until a full active squadron of twelve fighting machines has been sent. The machines are to be of Day design and are the same as the British government is using to defend London against Zeppelin attacks.

An order for the aero squadron was received by President H. B. Mingle last week after an official board of experts had tested every type of aeroplane made in America and had considered the ability of the plants to turn out machines immediately. The Standard plant has no European war orders at this time and can turn its entire output, one machine a week, over to the United States government.

WIFE A WITNESS, LYMAN IN TEARS

Weeps Over Message of Love as Woman Tries to Help Him.

BRITISH ATTACHE TRAILED PRISONER

Objections Shut Off German Spy Inquiry—Case May Go to Jury To-day.

With his wife on the stand ready to testify in his defence against the government's charge of fraudulent use of the mails, John Grant Lyman broke down and wept before Judge Welterton in the United States District Court yesterday afternoon.

He held in his hand a cable message sent to his wife in London three days before his disappearance from his Broad Street office in February. It read:

"Anxiously awaiting my babies' return. Love. JACK LYMAN."

Lyman was about to introduce this evidence to show that he had not premeditated flight, when his emotions conquered the calm nerves that have supported him in conducting his own defence. His decision to have his wife, loyal to him since his arrest, take the stand was contested bitterly by the prosecution.

Mrs. Lyman Testifies.

"Are you the wife of this defendant?" Edwin M. Stanton, Assistant United States Attorney, asked as soon as the witness gave the name of Mrs. Leonora Lyman.

"I am," she answered.

"Well, then, I contend her testimony can be used neither for nor against this defendant," Mr. Stanton said.

"It was done in the Waite case," Lyman suggested.

When Judge Welterton asked for precedents four Assistant District Attorneys jumped to their feet eager to oppose the contention of the former head of the defunct John H. Putnam Company.

Are You Thrifty?

(See below *)

It will cost you from \$11 to \$19 per set more if you wait!

The sale at present prices of

Encyclopaedia Britannica

closes June 17th, 7.33 P. M. After that, \$11 to \$19 more

NEARING THE END

If there had been no war

—if the shortage in dyes, drugs, chemicals and hundreds of other things which it occasioned had not sent prices soaring to the skies;

—if there had not been the same serious increase in the price of paper, leather, printing ink (and an actual famine of some sorts of binding materials);

—if the publishers of the Britannica had not suddenly been confronted with the problem not only of heavily increased costs, but also of a scarcity in India paper and of binding leathers, so that they had to notify us that our present contract with them could not be renewed, we might have gone on selling the new "Handy Volume" Issue of the Britannica at the present low prices for a long while, as we had intended.

This is impossible. In spite of the enormous printing which we had arranged for

(which made it possible for us to sell the complete new unabridged Eleventh Edition of the Britannica, in a small-page form, at one-third the price of the larger-page Cambridge University issue)

the issue has been taken so rapidly that only a small number of sets now remain and we cannot secure any more at anything like present prices.

For such further sets as we shall be able to obtain we shall have to increase the price by \$11 per set for the cheaper bindings to \$19 per set for the more expensive bindings

(and there is no telling how long even these prices can be maintained).

We wish to give the public full warning. More than 200,000 persons have written us to ask for our large illustrated 130-page descriptive book about the Encyclopaedia Britannica and the new "Handy Volume" Issue. This means that a tremendous number will come rushing in at the last minute.

We send the entire 29 volumes upon the payment of a single dollar. Then you have three weeks with the books in your own home to make up your mind they are just what you want. (See our unconditional guarantee.)

But only ten days remain—ten working days.

On June 17th at 7.33 p. m. our offer is closed.

Any order postmarked before that day, date and hour, we will endeavor to fill if possible, though we cannot guarantee any particular style of binding unless your order is sent immediately.

You are the judge—your family the jury!

Remember, that when you sign the order form below and send us your dollar the sale is not closed. All this does is to secure the shipment to you of 29 volumes of the new "Handy Volume" Issue in whatever style of binding you desire. Then you have three weeks in which to examine the volumes in your own home, use them every day, discuss them with your family, learn how wonderfully valuable this great work may be to you and every member of your household, especially to your growing children. Then

if for any reason whatsoever you decide you do not wish to keep the books, you may return them and we will refund your dollar and all shipping charges as well.

You take no risk. We take it all.

Sets may be seen and orders left at

Gimbel Brothers

SCRIBNER'S, 597 Fifth Avenue.

MALKAN'S, 42 Broadway.

All prices are figured so low that shipping charges cannot be prepaid. Boxed for shipment, the India paper set weighs less than 60 pounds, and the "Special Economy" set about 120 pounds. We have warehouses in 12 cities and will ship your set from the nearest.

Only 10 Days More

Read What \$1 Brings (See below *)

*\$1 paid now brings you the entire 29 vols. Every penny refunded if you are not completely satisfied (See guarantee below *)

the "Handy Volume" Issue of the

Encyclopaedia Britannica

closes June 17th, 7.33 P. M. After that, \$11 to \$19 more

AN ASTONISHING HISTORY

For two years short of a century and a half the standard—the foremost work of reference in all the world

—its new edition costing more than any other work of reference ever published in any language, and forming the newest and most complete compend of human knowledge that exists.

—nearly 75,000 sets of this new edition sold already, involving a total of \$14,000,000—for one new edition of a single work

—bringing the total sale since its beginning 148 years ago up to over a million sets, representing a total of over \$100,000,000 (and a total of more volumes sold than any other work ever published with perhaps the single exception of the English Bible and Shakespeare)

—a work that has engaged the collaboration of more distinguished men—the greatest minds of each generation—than any other work ever published in any language

—a work that for 148 years has never had a rival in its own language and has never had an equal in any other.

Need any more be said? This is the record of the Encyclopaedia Britannica. From the days of Sir Walter Scott, of Lord Jeffrey and Thomas Young, it has been counted an honor to be invited to write for this distinguished work, and the most eminent men of each successive period have written its articles,

—not merely the most distinguished minds of English-speaking peoples, in Great Britain, in America, but many of the foremost authorities of other nations as well.

Far back the famous Arago and Biot, two of the most eminent of Frenchmen of science, set the fashion, and since that time there have been contributions from the distinguished men of almost every nation in Europe

—to the new Eleventh Edition contribute many of the foremost minds of Germany, like Harnack, Ostwald, Meyer, Driesch, Verworn and Nernst; of Holland, like Lorentz, Van Der Waals and van't Hoff; of France, like Babelon, Bémont, Esmein, Luchaire; of Italy, like Villari; of Sweden, like Nansen; of Japan, like Kikuchi; of Russia, like Prince Kropotkin; and so on throughout the list.

Yet, in spite of all this high scholarship, in spite of its unquestioned authority, the Encyclopaedia Britannica is an eminently practical and useful book full of interest and unexpected charm, and expressly designed to meet the needs of busy men and women of to-day.

—And this is the work which you can now obtain for the first time—the new edition, absolutely complete, not one of its 30,000 pages changed by a line, at a popular price (only one-third that charged for the larger page Cambridge University issue of identically the same work)

—the complete work sent you upon the payment of a single dollar. After that easy monthly payments, according to the style of binding you select.

These prices based on before-the-war contracts. NOT VALID AFTER JUNE 17th

To SEARS, ROEBUCK and CO., Chicago Date 1916

Please send me a set of the Encyclopaedia Britannica "Handy Volume" Issue: India paper, in style of binding marked with an X at the right.

Standard book paper, cloth binding, as marked with an X at the bottom of column at the right.

I enclose \$1 as first payment and agree to pay balance in monthly payments of \$3.00 monthly, beginning 30 days from date. You are to give me receipt when I have paid in full, and then the Encyclopaedia becomes my property. You guarantee that I may return the books within three weeks if I am not satisfied and you will send my money back.

I have always been faithful in paying my obligations, and am making this statement for the purpose of inducing you to grant me this credit and to assure you that you may feel safe in trusting me to pay as agreed.

Send me a special Bookcase (Mahogany) price \$3.75 (mark X in square of the one you want), which I will pay one month after last instalment.

Name (Sign your name here plainly and care fully) Post office Street and No. State Shipping point, if different from post office. I have been located in this town since My profession, business or occupation is NOTE: To pay cash in full, write only your name, address and place books are to be sent; check (in the square) the binding you want; and enclose the cash price there listed for that binding.

Only 15 1/2 Inches Wide
